

## Graduation/Transfer Rates

The Student Right-to-Know Act requires postsecondary educational institutions to report the percentage of first-time, full-time, degree or certificate-seeking students who graduate or transfer within 150 percent of the length of the program of study. This group is referred to as a “cohort” and is further defined as students in their first semester of college after completing high school or a GED, enrolled for 12 credit hours or more, and enrolled in a program of study resulting in an associate degree or certificate of completion.

For two-year colleges, progress of the cohort is followed for three years. The most recent cohort for NWCCD began enrollment in the summer or fall semester of 2007. At this time 371 individuals started their college career at a campus of Northern Wyoming Community College District as full-time, degree/certificate-seeking students.
