

To connect to NWCCD\_Guest wireless click on the NWCCD\_Guest wireless broadcast. Select the connect button and wait while your device obtains an IP address. When your network status shows connected, launch a web browser and attempt to proceed to a web site.

You will then be directed to the NWCCD Acceptable Use of Computing Resource Terms page. You must read and **scroll entirely** through the terms on the page. You must then select accept to be connected.

After accepting the terms, you will receive a page informing you that you have successfully connected to the network. You may now use NWCCD Guest wireless.
