

## **MEDICAL ASSISTANT CERTIFICATE**

The Medical Assistant Certificate is an intense course of study, divided into two primary areas in order to prepare students with the skills necessary for entry-level jobs in medical settings. Students are prepared to work in ambulatory medical settings such as physicians' offices, clinics, and surgical centers; they function as members of the health care delivery team and perform administrative and basic clinical procedures. Certification is acquired following national testing after each course.

### **MEDA 1600 – Clinical Medical Assistant, 9 credits; fall semester**

This course provides both foundational and practical application of practice within a medical office. Students will be introduced to the clinical concepts of patient intake and discharge, preparation for the physical exam, collecting and processing specimens, and medication administration. As part of the training, students will complete 180 hours of practicum assisting a provider with medical/surgical procedures. At the end of the course, students are eligible to sit for the national certification exam of Certified Clinical Medical Assistant (CCMA). This course is offered in the spring semester.

### **MEDA 1505 – Medical Office Assistant, 5 credits; spring semester**

This course gives students a foundation in practice within a medical office. Students are introduced to the foundational concepts of professionalism and professional practice, law and ethics in health care, medical office administrative procedures, medical terminology, and medical office finances. Students will also complete 90 hours of practicum in a medical office setting and experience the administrative concepts of customer service, medical reception, medical business practices, establishing medical records, scheduling appointments, practice finances, and office etiquette. At the end of the course, students are eligible to sit for the national certification exam of Certified Medical Administrative Assistants (CMAA). This course is offered in the fall semester.
