Dental Hygiene Program General Information

The dental hygienist is a preventive oral care professional who is licensed to provide educational, clinical, and therapeutic dental hygiene services to the public. Full-time, part-time, evening, and weekend work is widely available. Earnings vary by geographic location, employment settings, and years of experience. Dental hygienists have the opportunity to work in a variety of settings, including private dental offices, dental clinics, federal, state, or local health departments, hospitals, nursing homes, school districts, correctional facilities, private industry, or as educators, researchers, and administrators. The variety of career opportunities and the possibility of flexible hours and schedules make dental hygiene an attractive career choice.

The following links will provide more information concerning dental hygiene as a career, general educational preparation, and the expected salary for dental hygienists:

American Dental Hygienists' Association: <https://www.adha.org/professional-roles>

American Dental Association: <http://www.ada.org>

US Dept. of Labor, Bureau of Labor Statistics, Occupational Outlook Handbook, Dental Hygienists: <http://www.bls.gov/ooh/healthcare/dental-hygienists.htm>

Dental jobs: <https://dentaljobs.net>

Sheridan College Dental Hygiene Program offers an Associate of Applied Science Degree (AAS) with the option of completing a Bachelor of Science Degree in Dental Hygiene (BSDH) through the University of Wyoming. This BSDH option is unique to Sheridan College and provides additional career options upon graduation. Graduates are eligible to take national, regional, and/or state examinations. Graduates will also be competent in the use of lasers for soft tissue laser therapy, and administration of both local anesthesia and nitrous oxide/oxygen administration. Applicants are encouraged to contact the State Board of Dentistry in the states in which they wish to practice for individual licensing requirements.

The Sheridan College Dental Hygiene Program is accredited by the Commission on Dental Accreditation (CODA). The Commission is a specialized accrediting body recognized by the United States Department of Education.

NOTICE TO POTENTIAL NWCCD STUDENTS

Campus Safety/Cleary Act Disclosure

NWCCD is committed to maintaining a safe and secure campus environment. As a part of ongoing safety efforts, NWCCD publishes an annual report that discloses crime statistics on and around our campuses. A direct link to the most recent Annual Security and Fire Safety Report is provided on the Consumer Information and Student Right to Know webpage under Safety and Annual Security/Fire Safety Report (Clery Disclosure).

<https://www.sheridan.edu/about/consumer-information/#1484064670819-1368877f-f99a>

If you wish to obtain a hard copy of this report, please contact the Office of Risk Management at 307-675-0812 or by emailing jclements@sheridan.edu.

The following link will lead you to the NWCCD Campus Safety page, where you can find NWCCD's Campus Rules and Regulations and the Campus Safety Plan.

<https://www.sheridan.edu/student-life/campus-safety/>

Equal Opportunity: Non-Discrimination Clause

Northern Wyoming Community College District prohibits discrimination in employment, educational programs and activities on the basis of race, national origin, color, creed, religion, sex, pregnancy, age, disability, veteran status, sexual orientation, gender identity, genetic information or any other class protected under state and federal law. The District also affirms its commitment to providing equal opportunities and equal access to its facilities. Inquiries concerning Title VI, Title VII, Title IX, Section 504, and the Americans with Disabilities Act may be referred to titleix@sheridan.edu or in person with NWCCD's Title IX and Section 504 Coordinator, Sheridan College, Griffith Memorial Building, Room 141D, 1 Whitney Way, Sheridan, WY 82801; 307-675-0505. Inquiries also may be made to the Office for Civil Rights, U.S. Department of Education, Federal Building, Suite 310, 1244 Speer Boulevard, Denver, CO 80204-3582; 303-844-3417; or TDD 303-844-3417.

DENTAL HYGIENE PROGRAM MISSION

Sheridan College Dental Hygiene Program graduates will be competent dental hygienists who uphold professional and ethical standards through critical-thinking, evidence-based decision making. They will demonstrate empathy and compassion when providing care to diverse populations and strive to be effective team members. They will be conscientious, life-long learners who actively participate in their communities and the dental hygiene profession.

PROGRAM OUTCOMES

- **Established expectations that identify exit-level occupational or discipline-specific skills and abilities which are assessed prior to earning a credential.**
- 1. Apply a professional code of ethics in all endeavors, assuming responsibility for professional actions.
- 2. Promote positive values of overall health and wellness, in a culturally competent manner, to individuals, the public, and organizations within and outside the profession.
- 3. Assess the oral health needs and services of community groups, determine action plans, and evaluate the outcomes of community-based programs.
- 4. Provide individualized care utilizing the dental hygiene process of care model (assessment, dental hygiene diagnosis, planning, implementation, evaluation, documentation) that includes the educational, preventive, and therapeutic services necessary to achieve and maintain oral health.
- 5. Accept responsibility for continuous professional growth through self-assessment, pursuit of life-long learning, and service activities.

PROGRAM COMPETENCIES

- **Program competencies outline the knowledge, skills, behaviors, and professional attitudes needed to begin a career in dental hygiene, whether in public or private settings. They clearly define what graduates must know and be able to do, and they guide the content of each course. The quality and structure of our curriculum are based on these competencies.**
- 1. Apply professional values and ethics in all endeavors.
- 2. Demonstrate critical and analytical reasoning to identify and develop comprehensive oral health care solutions and protocols.
- 3. Promote the values of the dental profession through service-based activities.
- 4. Demonstrate self-awareness through reflective assessment for continued improvement.
- 5. Protect privacy, confidentiality and security of the patients and the practice by complying with legislation, practice standards, ethics and organizational policies.
- 6. Solicit and provide constructive feedback to promote professional growth of self.

STUDENT COMMITMENT

Due to the demands of the full-time dental hygiene program, student employment is not encouraged. This personal decision should be based on individual performance in the classroom, clinical sites, and personal health. It is the desire of the dental hygiene faculty that students be successful in the program and that essential learning is not compromised. Students will not be excused from class or clinical assignments for personal work schedules.

Clinical, laboratory, and program activities in the Sheridan College clinic and other external sites may be scheduled as early as 7 am or as late as 10 pm and may be on any day of the week. Students are required to participate in these activities as scheduled. Childcare arrangements, work schedules, and transportation are the students' responsibility.

Classroom, laboratory, and service-learning attendance are expected. Accountability for knowledge and assignments is the student's responsibility. Failure to comply with attendance or assignments may interfere with progression in the program and could result in dismissal from the program.

Dental hygienists must possess clinical skills. This skill development takes time and practice. Students are given clinic time to develop these skills and must see a sufficient number of patients for skill development to occur. The clinic provides a small number of patients to the student, but a majority of patient appointments are scheduled by the student. This can be a time-consuming process, so expect to spend some hours per week looking for and scheduling the patients needed to develop specific skills.

The dental hygiene profession from its inception has been built on a foundation of prevention. As dental hygiene professionals, we must advocate for disease prevention and public health. Prevention includes vaccinations, sealants, and fluoride therapies. The expectation of the Dental Hygiene Program is that students will participate in all learning activities including promoting prevention.

PROGRESSION IN THE PROGRAM

To progress in the dental hygiene program, the student must:

1. Maintain a minimum grade of "C" in each required dental hygiene course.
2. Maintain acceptable background checks/drug screens and certifications.
3. Meet attendance requirements in clinical, lab, and program activities.

To be considered for graduation, all students must demonstrate competency in all facets of the dental hygiene curriculum as set forth by the Commission on Dental Accreditation of the American Dental Association.

REQUIREMENTS OF THE STUDENTS IN THE DENTAL HYGIENE PROGRAM

The following is used as a guideline for the prospective students so that they may understand the physical requirements and essential job functions necessary for successful completion of the Dental Hygiene Program. This list is not intended to be all-inclusive, but rather a detail of the basic demands of the profession of dental hygiene.

- | | |
|--|--|
| <ol style="list-style-type: none">1. Understand the importance of and be able to wear the appropriate personal protective equipment required to work safely (scrub top, scrub pants, closed-toed shoes, gloves, masks, gowns, etc.).2. Sit, stand and/or bend for extended periods of time in one location with minimal or no breaks.3. Bend, twist, and lift a minimum of 20 pounds.4. Demonstrate sufficient visual ability to instrument and provide anesthesia in the oral cavity with or without corrective lenses and while wearing protective eyewear.5. Demonstrate sufficient peripheral vision to function in the clinical setting.6. Demonstrate effective communication with patients, staff, and instructors while wearing a dental mask during clinical treatment, with or without accommodations.7. Detect odors sufficient to maintain environmental safety and patient needs.8. Manipulate small instruments, supplies, and equipment with efficiency, dexterity, and exceptional eye-hand coordination.9. Tolerate the sight/smell of blood and body fluids. | <ol style="list-style-type: none">10. Assist with and/or lift, move, position, and manipulate with or without assistive devices, the non-ambulatory patient.11. Fluently communicate and understand English both verbally and in writing. Bilingual abilities are a plus.12. Be free of reportable communicable diseases and chemical abuse.13. Function without allergic reaction in an environment with substantial latex and chemical exposure.14. Abide by clinical rotation policies and guidelines.15. Provide documentation of immunity set forth by current public health agency guidelines.16. Possess short and long-term memory sufficient to perform tasks such as, but not limited to patient assessment, clinical procedures, professional judgment, and performing anticipation skills in the clinical environment.17. Adhere to a schedule while working under pressure and demonstrate appropriate use of positive coping skills while under stress.18. Exhibit positive interpersonal communication skills in patient, staff, and faculty interactions.19. Make appropriate judgment decisions. |
|--|--|

ADMISSIONS CRITERIA

The dental hygiene education curriculum is scientifically oriented, rigorous, and intensive. Admissions criteria and procedures are necessary to ensure that the students selected have the potential for successful completion of the program. The following page contains the rubric for ranking applicants.

Applications and all required materials (including transcripts and observation hours) are due by February 15th, 2026, for admission to the Fall 2026 semester. Applicants must complete all prerequisite courses listed on the following page by the end of the Spring 2025 semester. A maximum of two prerequisite courses may be in progress during that spring semester.

Pre-requisite courses must be completed with a “C” or better, and applicants must have a cumulative GPA of 3.0 to apply for admission. Admission selection is based on the cumulative GPA of the non-science pre-requisite courses and the cumulative GPA of the science pre-requisite courses. All pre-req courses must be completed by the end of the **SPRING** semester in which the student applies. No **SUMMER** course grades are accepted for the summer following the student’s application!

Wyoming residents applying to the program will receive **1 preference point** in the scoring (see rubric).

Students who take **ALL** 12 pre-requisites at Sheridan College will receive **1 preference point** in the scoring (see rubric).

For courses that have been retaken, the most recent grade will be used. A 1-point deduction will occur after two attempts of the **SAME** course.

After the Total Value Points without interview points are determined (see rubric), and if two applicants are equally qualified, then the overall prerequisite GPA will be the determining factor in the selection process. If there is still a tie, the science GPA will be the determining factor. If there is still a tie, the non-science GPA will be the determining factor.

Class size is limited to 24 due to facility capacity. The 24 highest-ranking candidates are offered positions in the program. All other qualified applicants are placed on the Alternate List and may be offered a position in the class should an initially accepted candidate decline the position. (Being placed on the Alternate List does not guarantee admission.) Applicants must also complete 20 hours of observation of a dental hygienist in a dental facility (form provided). The observation hours may be waived if an applicant has dental assisting experience (waiver form provided).

*Updated Admissions Criteria as of July 1, 2025

	Pre-requisite courses		
	Number	Course name	Credit Hrs
Non-Science Courses	ENGL 1010	English Composition I (GenEd-BW) <i>Prerequisite: Reading Level 3 on placement exam</i>	3
	ENGL 2030	Critical Reading and Writing (may substitute ENGL 2005 -Writing in Technology and the Sciences or approved AW 0000) <i>Prerequisite: ENGL 1010 English Composition I with a grade of "C" or better</i>	3
	MATH 1400	College Algebra (may substitute MATH 1000 Problem Solving 3 cr) (GenEd-BM) <i>Prerequisite: MATH 0930 Intermediate Algebra with a grade of "C" or better OR Math Level IV Placement</i>	3-4
	PSYC 1000	General Psychology (GenEd-CS)	4
	ANTH 1200	Cultural Anthropology (may substitute SOC 1000 Sociological Principles)	3
	COMM 2010	Public Speaking (may substitute COMM 1030 Interpersonal Communications) <i>Prerequisite: ENGL 1010 English Composition I with a grade of "C" or better</i> <i>**May only be used to meet one pre-requisite category/may not be used for multiple requirements</i>	3
	FCSC 1141	Principles of Nutrition	3
Science Courses	BIOL 1010	General Biology I <i>Prerequisite: Completion of or concurrent enrollment in MATH 1000 Problem Solving, MATH 0930 Intermediate Algebra or higher level math, or Math Placement Level IV</i>	4
	CHEM 1000	Intro to Chemistry (may substitute CHEM 1020 General Chemistry I or CHEM 1030 General Chemistry II) (GenEd-Sci of choice) <i>Prerequisites: Enrollment in MATH 0930 Intermediate Algebra, or placement into a higher level mathematics course</i>	4
	MOLB 2210*	General Microbiology (may substitute MOLB 2240 Medical Microbiology) (*must be 5 years current at the time of application) <i>Prerequisite: BIOL 1010 General Biology I and CHEM 1000 Introductory Chemistry or CHEM 1020 General Chemistry I with a "C" or better or instructor consent (effective fall 2018)</i>	4
	ZOO 2010*	Human Anatomy and Physiology I (*must be 5 years current at the time of application) <i>Prerequisite: One semester of college biology, or chemistry, or introductory anatomy and physiology, or instructor permission</i>	4
	ZOO 2020*	Human Anatomy and Physiology II (*must be 5 years current at the time of application) <i>Prerequisite: Completion of ZOO 2010 Human Anatomy & Physiology I or instructor permission</i>	4
	TOTAL PRE-REQUISITE CREDITS		
			42-43

Dental Hygiene Admissions Rubric

The non-science GPA and science GPA points are totaled together first, the Wyoming residency point is added, the Sheridan College pre-requisite point is added, retake points are deducted, and then the interview points are added for the total score. The maximum total score is 36.5.

Students who score the highest total points after the deductions will have a position in the top tier of applicants. The interview is only offered to the top tier of applicants, and the points are added after the interviews are completed to get the overall point scores.

Example: Non-resident student with a Non-Science GPA of 3.50 and a Science GPA of 3.65 with 1 retake, who took ALL their pre-requisites at Sheridan College, and scored 25 points on the interview.

Non-Science Pre-req GPA (35%)	Value	Points
3.81-4.00 = 35 pts	29 X .35 =	<u>10.15</u>
3.61-3.80 = 32 pts		
3.41-3.60 = 29 pts		
3.21-3.40 = 26 pts		
3.00-3.20 = 23 pts		
2.99-0.00 = 0 pts		
Science Pre-req GPA (40%)	36 X .40 =	<u>14.40</u>
3.81-4.00 = 40 pts		
3.61-3.80 = 36 pts		
3.41-3.60 = 32 pts		
3.21-3.40 = 28 pts		
3.00-3.20 = 24 pts		
2.99-0.00 = 0 pts		
	<u>Sub-Total</u>	<u>24.55</u>
Wyoming resident preference point		<u>0</u>
ALL 12 pre-requisites taken at Sheridan College preference point		<u>1</u>
Retake courses (-1 point deduction after two attempts of the SAME course)		<u>-1</u>
	<u>Total Value Points (for top tier)</u>	<u>24.55</u>
Interview (rubric) (25%)		
5 questions, each worth 0 - 5 pts		
For a total of 0 - 25 pts	25 X .25	6.25
	Overall Point Score	<u>30.80</u>

Pre-Admission Observation Form

Dental Health Care Practitioners:

To be admitted to the Sheridan College Dental Hygiene Program, a student must observe a minimum of 20 hours of specified procedures with two different dental hygienists and a dentist. The completed forms must be submitted by February 15th of the year of application to the program. (Copies may need to be made if two separate offices are involved.)

Students should present for observation with proper hygiene, grooming, and business casual attire: dress slacks, dress shirt, and closed-toe shoes. Students should not appear in clothing that exposes cleavage, midriff, or undergarments. You have the right to refuse the observation session if the student does not adhere to this dress code.

The faculty of the Sheridan College Dental Hygiene Program would like to thank you and your staff for the consideration you have shown to this prospective student, and we appreciate your comments. We believe prospective students will gain a better understanding of dentistry and dental hygiene practices through these observations.

Please answer the following questions and return the completed observation forms to:

DENTAL HYGIENE PROGRAM DENTAL ASSISTING OBSERVATION WAIVER FORM

The Sheridan College Dental Hygiene program requires applicants to the program to observe dental hygienists and dentists performing particular services and procedures for 20 hours. The purpose of the observation requirement is to ensure that potential applicants understand the environment in which they will be working and to observe some of the more common procedures expected of a dental hygienist.

The dental hygiene program will waive this observation requirement for applicants who have worked as dental assistants for a minimum of one year. Please complete this form and mail, fax, or email it to the dental hygiene program by the **February 15th** application deadline.

I _____ have worked as a dental assistant for
(print name)
_____ years/months. I understand the scope of dental hygiene
practice and wish to apply to the Sheridan College dental hygiene program.

Name of Practice/Dentist: _____

Office Contact Information (address, phone number, email): _____

Applicant signature and date: _____

Employer Signature and Date: _____

Fax to: 307-675-0679 or email to: dentalhygiene@sheridan.edu or mail to: Sheridan College
Dental Hygiene Program, 1 Whitney Way, Sheridan, WY 82801

Blank Page

APPLICATION PROCESS

The dental hygiene program provides an online application for student convenience on the dental hygiene page at <https://www.sheridan.edu/academics/programs-a-z/dental-hygiene/> (See Orange Button). All applications, transcripts, and forms must be completed by **February 15th** to be considered for Fall Semester admittance to the dental hygiene program. All pre-req courses must be completed by the end of the spring semester in which the student applies – **we do not wait for SUMMER course grades!**

Step 1. Apply to Sheridan College on the college webpage, www.sheridan.edu (if not a current Sheridan College student).

Step 2. Official transcripts from your high school and all colleges you have attended must be **received by** Sheridan College by the application deadline of **February 15th**. Official transcripts can be requested and sent electronically through the National Student Clearinghouse at <https://studentclearinghouse.org>. Please note that some classes may not transfer.

Step 3. Complete the dental hygiene program application form on the www.sheridan.edu website on the Dental Hygiene page using the orange “**Apply to Dental Hygiene Program**” button.

Step 4. Submit the observation form or observation waiver form to the dental hygiene program by mail, fax, or email.

After February 15th, the dental hygiene admissions committee meets to review applications. The top tier of applicants will be contacted to schedule an interview. These interviews are conducted via ZOOM or other such technology between February 15th and March 15th. In late March, applicants are notified of their status. The following terms and definitions are used by the Sheridan College dental hygiene department.

ACCEPTANCE: Applicant has completed all pre-requisite courses, and all required forms and materials have been received by the department.

CONDITIONAL ACCEPTANCE: Applicant is currently enrolled in spring semester pre-requisite courses and anticipates successful completion. All transcripts up to spring semester have been received, and all other application materials have been received. Conditional acceptance automatically converts to ACCEPTANCE when final spring semester transcripts have been received and courses have been completed successfully.

ALTERNATE ACCEPTANCE: Applicant has completed or is in the process of completing all pre-requisite courses with anticipated successful completion and all other required forms have been received. The ranked score did not place the applicant in the top 24. Alternate candidates are informed of their rank on the list of alternates. If a candidate who is accepted declines the position in the class or fails to submit their required documents by the deadline, the first alternate on the list will be contacted and offered acceptance. This process continues throughout the summer until the first day of the fall semester.

ADDITIONAL INFORMATION FOR ADMITTED STUDENTS

After admission and prior to entering the class in the fall semester, students are required to complete the following. A letter detailing these requirements is sent to admitted students in May.

CPR- Students are required to be certified in CPR by the American Heart Association at the Basic Life Support (BLS) level for healthcare providers before they begin their first fall semester. **All students will need to be certified for the entire two years of the program and through the month of May following graduation.**

Criminal Background Check- Completed online through the University of Wyoming. A link will be provided to accepted students. Some misdemeanor and/or felony charges would prevent individuals from obtaining licensure. Background checks are completed to ensure potential students are eligible for licensure prior to starting school.

Eye Examination Report- the student will need to have an Eye Examination Report completed (form supplied after acceptance to the program) by an optometrist or physician who provides eye examinations.

Health Record- As part of the student health record, the following forms must be completed by the student's healthcare provider:

- Dental Hygiene Student Health Record
- Physical Examination
- Health and Safety Guidelines: Essential Skills, Abilities, and Performance Standards
- Forms are supplied after acceptance into the program.

Immunizations- As health professionals, dental hygienists, and other dental team members are exposed to contagious diseases, and are therefore at risk of becoming infected. The National Health Institute, the Centers for Disease Control, and the Department of Health and Human Services all strongly recommend that vaccinations be utilized by health professionals at high risk. Dentists and dental hygienists are near the top of the list of those persons more likely to contract certain diseases. The guidelines for immunizations are established in compliance with the Centers for Disease Control (CDC) <https://www.cdc.gov/vaccines/hcp/imz-schedules/adult-age.html> and the Occupational Safety and Health Act (OSHA).

Dental hygiene students are required to have the following immunizations:

1. **MMR** (measles, mumps, rubella) – 2 doses in lifetime or positive titer
2. **Hepatitis B Series** - must have started the series by program start date
3. **Tetanus/Diphtheria/Pertussis or Tdap** - within last 10 years while in the program
4. **Tuberculosis (TB)** – One of the following must be completed within the past 12 months.

We do accept the blood tests listed below in place of the skin testing.

- Negative 2-step TB skin test (administered 1-3 weeks apart). 2-step TB test means you must have 2 separate tests that will take 4 trips to the provider.

OR

- Negative QuantiFERON Gold blood test

OR

- Negative IGRA blood test

5. **Varicella** (chicken pox) –Two doses or positive titer

6. **Influenza*** – Flu shots become available shortly after the fall semester begins. Plan to get one each year you are in the program (required for outside clinical rotation sites)

***Per outside rotation site policies, students must be vaccinated to attend**

Laptop computer- Admitted students are required to have a laptop computer for use during the school year. The minimum standards and recommendations include: wireless connection enabled, ability to access the learning management system online, and a minimum of four hours battery power. Charging stations are available in some classrooms. A home printer is highly recommended. Microsoft Office programs are used extensively in the program. Students must have Word, Excel, PowerPoint, and Outlook. **See Minimum System Requirements on the following page.**

NOTE: All students must comply with the network's acceptable rules of use.

Orientation- The dental hygiene program schedules an orientation session prior to the beginning of the fall semester, typically in the first half of August. In addition, students who are new to Sheridan College (i.e. completed their pre-requisites at a different college) will be required to complete an online orientation session.

Minimum System Requirements for Laptops

Students are required to have a laptop computer that meets the following minimum specifications. Operating space is needed for students to download the testing software, Exemplify. The following link navigates you to the requirements needed for your laptop to support the software.

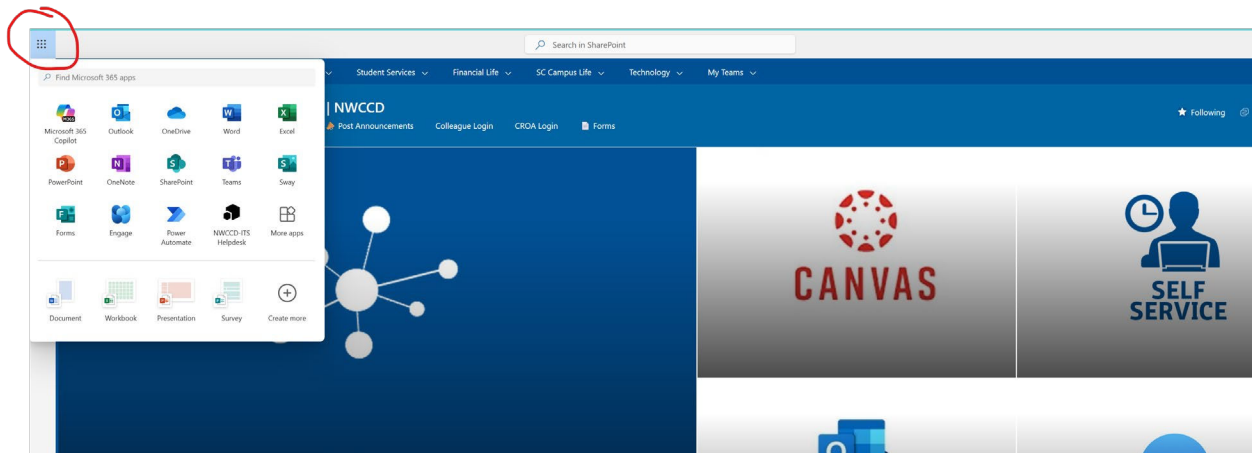

<https://examsoft.com/resources/exemplify-minimum-system-requirements/#windows>

PLEASE NOTE!

- Windows or Mac Laptops will be used to take Exemplify/ExamSoft exams.
- Exemplify will not run on Chromebooks, Android, or Linux operating systems.
- Exemplify does not support touchscreen input devices on Mac or Windows laptops.

Microsoft Office Programs

Microsoft Office programs are used extensively in the program and students must have Word, Excel, PowerPoint, and Outlook on their computers. Sheridan College provides these apps via the Sheridan.edu HUB Account for free.
