

Graduation and Transfer Out Rates

The Student Right-to-Know Act requires postsecondary educational institutions to report the percentage of first-time, full-time, degree or certificate-seeking students who graduate or transfer within 150 percent of the length of the program of study. This group is referred to as a “cohort” and is further defined as students in their first semester of college after completing high school or a GED, enrolled for 12 credit hours or more, and enrolled in a program of study resulting in an associate degree or certificate of completion.

For two-year colleges, progress of the cohort is followed for three years (150% of normal completion time for an Associate’s degree program). The most recent cohort for NWCCD began enrollment in the summer or fall semester of 2021. 427 individuals started their college career at a campus of Northern Wyoming Community College District as full-time, first-time, degree/certificate-seeking undergraduate students.

Students Receiving Institutional Athletic Aid

This group is referred to as a “cohort” and is further defined as students in their first semester of college after completing high school or a GED, enrolled for 12 credit hours or more, and enrolled in a program of study resulting in an associate degree or certificate of completion. As per IPEDS’ definition, this cohort only includes individuals started their college career at a campus of Northern Wyoming Community College District as full-time, first-time, degree/certificate-seeking undergraduate students. Of this cohort, the data below only include students receiving institutional athletically-related aid during their entering year. Rodeo team data represents rodeo athletes at both Sheridan College and Gillette College.
