

LOCATION & PARKING

The dental hygiene clinic is located on campus in the west wing of the Health Science Center in room W179. The clinic's main entrance is located to the south of the Edward A. Whitney Academic Center.

Parking is available on the south side of the main entrance in the spots marked above.

Signs have been placed throughout the Whitney Academic Center to help guide patients to the Dental Hygiene area. Plan to arrive early to give yourself time to find parking. There is an information table directly inside the main entrance for further assistance.

Standard precautions are taken for every patient seen at the Sheridan College Dental Hygiene Clinic and outside rotations. These precautions include personal protective equipment, sterilization of all instruments, and disinfection protocol are followed to help prevent the spread of blood-borne pathogens and infectious diseases.

SERVICES

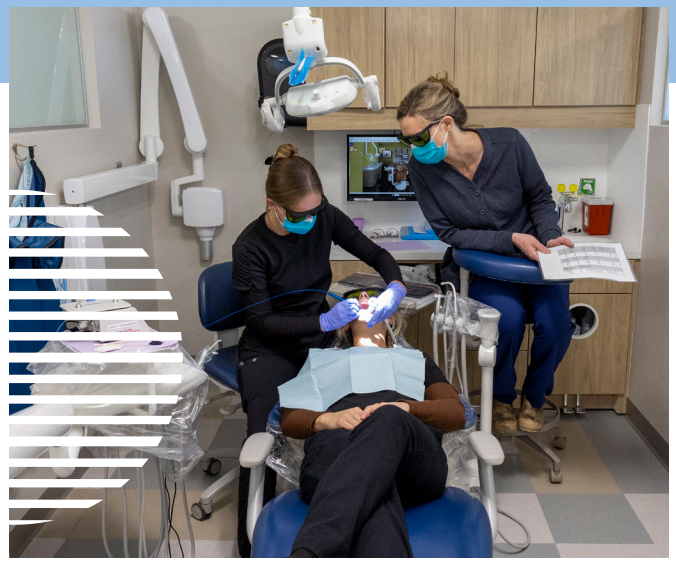

The Kim and Mary Kay Love Dental Hygiene Clinic at Sheridan College is a full-service dental clinic open to the public. We provide patient education and individualized services to help patients reach their oral health goals.

Available services include:

- Oral Prophylaxis - teeth cleaning
- Topical Fluoride Application - must be preceded by prophylaxis at the same appointment time
- Full Mouth X-ray Survey - x-rays will be sent to your dentist upon request, by the dentist or you
- Pit and Fissure Sealants - to prevent tooth decay in grooves of teeth
- Athletic Guards & Whitening Trays

The clinic offers these services at a reduced cost. Our sophomore and junior students in the program provide the services in a learning environment, where they are supervised by faculty members and a clinic dentist. Students work more slowly than experienced graduates, and patients often will need to return for their completion of services. If your schedule will not allow you to return for further appointments, please reconsider your use of the clinic.

The clinic provides nondiscriminatory treatment regardless of race, color, religion, gender, sexual orientation, nationality or ethnic origin, age, military status, or disability. This includes individuals who may have been exposed to HIV and/or HBV.

CHILDREN

Children and adolescents are accepted for treatment in the Clinic. Minors under the age of 18 must have a parent or legal guardian register with them at the reception desk. Parent or legal guardian must stay at the clinic until the health history and treatment plan have been reviewed and signed (approx. 45 minutes). A health history, treatment plan, and release form are required.

Parents should not leave the clinic reception area while a child is being treated. Children may not accompany parents receiving treatment into the clinic area or be left unattended in the reception area. Arrangements should be made to leave children at home who are not receiving treatment at the clinic.

APPOINTMENTS

Appointments last approximately 3 hours. X-ray appointment times vary and last approximately 1.5 hours. Please arrive 15 minutes early to complete paperwork.
