

SCHOLASTIC PROBATION AND SUSPENSION

I. Probation

- A. Academic records are reviewed at the end of each semester. Students who have completed a minimum of 12 credit hours and whose cumulative grade point average (CGPA) is below a 2.0 will be placed on academic probation. A completed course is one in which a grade has been received.
- B. A student will be removed from academic probation when his/her cumulative grade point average (CGPA) meets or exceeds a 2.0 CGPA.
- C. A student will continue on academic probation if he/she earns a semester GPA of 2.00 or better but fails to reach the Cumulative Grade Point Average of 2.0.
- D. Students enrolled in a program with specific program standards may be subject to additional program probation and/or suspension, if their grades fall below the level required by program standards.

II. Suspension

- A. Students on academic probation who fail to show academic progress by earning a semester grade point average of 2.0 or higher will be academically suspended and will not be allowed to register for undergraduate credit courses during the period of suspension.
- B. No student will be suspended for academic reasons before he/she has completed at least 24 credit hours at the District. A completed course is one in which a grade has been received. No student will be suspended for academic reasons without first having been placed on academic probation the previous semester of enrollment.
- C. Students will be suspended for one regular academic semester (Fall or Spring) and may re-enroll with a status of academic probation.
- D. The student may appeal to the Student Affairs Committee to re-enroll the semester immediately following their suspension. Appeal of suspension decisions made by the Student Affairs Committee should be directed to the chief academic officer.

III. Restriction of Activities for Students on Probation

- A. No student on probation is eligible to hold any student office or to represent the District or the student body to the public.
- B. Students in their first semester participating in college-sanctioned varsity sports must earn at least a 1.75 cumulative grade point average in at least twelve (12) credit hours to retain eligibility for athletic participation for the second semester. Subsequent cumulative grade point averages must be 2.0 or higher to retain eligibility. In addition, participation in intercollegiate athletics is governed by additional rules of national organizations.
- C. An academic probation success plan will be required for each student placed on academic probation. Students on academic probation will meet with an advisor for approval before registering for classes.
