

MyNWCCD Overview for Trustees

The Northern Wyoming Community College District utilizes an intranet portal, called MyNWCCD. Access to MyNWCCD is limited to students, employees, and Trustees of the District.

MyNWCCD Purpose:

- Increase awareness of campus activities and improve employee perceptions about access to information and ability to control unwanted information.
- Improve communication between faculty and students.
- Provide a unified gateway to all information (early closing, events, notices) and campus networks (Canvas, School Dude, Web Advisor, Colleague, Outlook) with a single sign-in.
- Remove from external website pages that have only internal relevance (HR employee forms, motor pool, key and maintenance requests, IT hardware/software requests, etc.).

Upon election to the Board of Trustees, new members will be assigned a username and password by the Information Technologies Department. This access includes the use of an official Sheridan.edu e-mail address and access to MyNWCCD.

The log-in page for MyNWCCD is accessible from the District's external website, www.sheridan.edu.
