

## Graduation and Transfer Out Rates

---

The Student Right-to-Know Act requires postsecondary educational institutions to report the percentage of first-time, full-time, degree or certificate-seeking students who graduate or transfer within 150 percent of the length of the program of study. This group is referred to as a “cohort” and is further defined as students in their first semester of college after completing high school or a GED, enrolled for 12 credit hours or more, and enrolled in a program of study resulting in an associate degree or certificate of completion.

For two-year colleges, progress of the cohort is followed for three years (150% of normal completion time). The most recent cohort for NWCCD began enrollment in the summer or fall semester of 2017. 568 individuals started their college career at a campus of Northern Wyoming Community College District as full-time, first-time, degree/certificate-seeking undergraduate students.

## Students Receiving Institutional Athletic Aid

This group is referred to as a “cohort” and is further defined as students in their first semester of college after completing high school or a GED, enrolled for 12 credit hours or more, and enrolled in a program of study resulting in an associate degree or certificate of completion. As per IPEDS’ definition, this cohort only includes individuals started their college career at a campus of Northern Wyoming Community College District as full-time, first-time, degree/certificate-seeking undergraduate students. Of this cohort, the data below only include students receiving institutional athletically-related aid during their entering year (2017).
