The Clinic is in Room 190 of the Whitney Building.

Parking

Limited parking is provided on the southwest corner of the Whitney building. Clients are asked to get a Parking Permit from the front desk of the Whitney building. Additional parking is available in any of the other parking areas on campus that do not require a permit. You should plan to arrive early to give yourself time to find a parking space.

Services

The Sheridan College Dental Hygiene Clinic is a full-service clinic open to the public. We provide patient education and individualized therapeutic services to help patients reach their oral health goals.

The following services are available:

- **Oral Prophylaxis** - teeth cleaning
- **Topical Fluoride Application** - must be preceded by prophylaxis at the same appointment time
- **Full Mouth X-ray Survey** - x-rays will be sent to your dentist upon request, by the dentist or you.
- **Pit and Fissure Sealants** - To prevent tooth decay in grooves of teeth.
- **Mouth guards** - for sports

The SC Dental Hygiene Clinic offers these services at a reduced cost. Our sophomore and junior students in the dental hygiene program provide the services in a learning situation. Students are supervised by faculty members and a clinic dentist.

Students work more slowly than experienced graduates. Clients are frequently required to return for completion of services. Persons whose schedules will not allow them to return for further appointments should not plan to use the SC Dental Hygiene Clinic.

All persons whose dental hygiene care requirements are consistent with the program’s educational goals are eligible for care. The SC Dental Hygiene Clinic provides nondiscriminatory treatment regardless of race, color, religion, gender, sexual orientation, nationality or ethnic origin, age, military status, or disability. This includes individuals who may have or have been exposed to human immunodeficiency virus (HIV) and/or hepatitis B virus (HBV).

Screenings

New adult clients must be screened before receiving an appointment to have their teeth cleaned. Screening appointments are available on Tuesdays and Thursdays at 8:30 a.m., 9:30 a.m., 1:15 p.m., and 2:15 p.m. Please plan on being in the clinic for about an hour.

Children

Children and adolescents are accepted for treatment in the SC Dental Hygiene Clinic. **Minors under the age of 18** must have a parent or legal guardian register with them at the reception desk. Parent or legal guardian must stay at the clinic until the health history and treatment plan have been reviewed and signed (approximately 45 minutes). A health history, treatment plan, and release form are required.

Parents should not leave the SC Dental Hygiene Clinic reception area while a child is being treated in the clinic. **Children may not accompany parents receiving treatment into the clinic area or be left unattended in the SC Dental Hygiene Clinic reception area.** Arrangements should be made to leave children at home who are not receiving Dental Hygiene Clinic treatment.

Appointments

Appointments are scheduled for 8:00 a.m. and 1:00 p.m. and last approximately 3 hours. X-ray appointment times vary and last approximately 1.5 hours.

Clinic Days

**Fall Semester (September–December)**
- Tuesday, 8:30 a.m. & 1:15 p.m.
- Thursday, 8:30 a.m. & 1:15 p.m.
